

2 - Strength falters

VERSE 1:

Dm F

Use to hold my head high

Dm F

Every downturn comes around

could count on the words

Lifting when im down

But highs can flip

Where once was solace

Now pours with bitter

taste of losing face

VERSE 2:

We form our mind

Identified with history

personal beliefs shake

Away the memory

And the worst feeling

Is the pit of my heart

When I can't trust

Feel doomed from start

CHORUS:

Dm

every one's strength falters

Am C Dm

Dm

Every line that holds us

Dm C Am

Frays and comes undone

And we grasp For the promise

of feeling rock bottom

Will it finally bring the sun

VERSE 3:

I crave the pieces

secret jigsaws cut

Image created from

Pictures that r now shut

of the vision on screen

Even though the title

Misled to believe

No hero revival

Can it be buried

old operandi

Can morph into

A brand new alibi

CHORUS
